UNFPA would like to thank its funding partners for their support in 2022.

Thanks to you, UNFPA was able to expand rights and choices for all and reach the most vulnerable women, girls and young people across the world. Together we made great strides towards zero unmet need for family planning, zero preventable maternal deaths, and zero gender-based violence and harmful practices.

See the results achieved with our donors' contributions in 2022 at unfpa.org/data/results.

Join UNFPA's coalition of core contributors supporting rights and choices for all

2023 Core Resources Mobilization

1. Includes all funds received from joint funding mechanisms (joint programmes and multi-donor trust funds) as well as bilateral transfers from the United Nations organizations.

Effective 1 January 2022, UNFPA adopted a new revenue recognition policy; however, for the purposes of this brochure, information is presented based on previous policy to allow comparability of information across different years.
